

Essay #2: Hybrid

Directions

Write a five-paragraph summary-response argumentative essay in response to the Evan Osnos article. To do so, respond to the prompt: *Should Apple cooperate with the FBI in their investigation of a domestic terrorist attack? Why or not why? Why or why not?*

Requirements

In this argumentative essay you will agree or disagree with the prompt, supporting your points and explaining your reasons with evidence from the reading and personal experience. The introductory paragraph must start with a general which leads to a summary of the “Should Citizens Side with Apple or the FBI in the San Bernardino iPhone case?” article which itself leads to your thesis statement.

In the three body paragraphs, you must support your opinions with evidence from the text (e.g., reasons, examples, and the opinions of experts). In one of the body paragraphs you are required to make a text-to-self connection, otherwise known as personal experience. You should, furthermore, have at least one quote *or* paraphrase in each body paragraph. Both quotes and paraphrases require in-text citations. The essay will end with a conclusion whose primary purpose is to restate your ideas and wrap up the paper.

Please follow the paragraph structure from Essay #1. After writing a paragraph, go back and double check to make sure each sentence has coherence, that is, each sentence “links” back to the previous one in a logical way. Also make sure that you have no sentence in which you go “off topic.”

Format

Typed; double-spaced; 12 point font; 1 inch margins; your name and assignment name; page numbers.
